## CertainTeed RESTORATION MILLWORK™ Exterior Trim

## Put the accent on looks that last.

The right trimwork. It's one of those details that give a home some very desirable qualities like personality, curb appeal and true character. Not only does Restoration Millwork™ look and feel just like top-grade lumber, but it performs in superior fashion — free from the problems of real wood. It's ideal for so many reasons when it comes to adding the eye-catching accents you've been imagining.

**CertainTeed**

Quality made certain. Satisfaction guaranteed.™

Painted trim

An impression from real cedar was applied to Restoration Millwork.

## TrueTexture™ Woodgrain.

TrueTexture finish recreates a more realistic woodgrain texture on your home's exterior.

- The most authentic-looking cedar woodgrain on the market
- Available on trimboards, sheets and one-piece corners
- Ideal for any non-weight-bearing exterior application
- Yet another style option from Restoration Millwork™

## VinylSafe™ paint.

- Paint Restoration Millwork to complement or contrast virtually any siding
- Yesterday, you could only paint PVC trim a light color to prevent blistering and buckling caused by the sun's heat
- Today, you have a full range of options, light to dark, thanks to Sherwin-Williams® VinylSafe Color Technology\*

Similar colors give you a blended look.

An accent color can work in complementary fashion.

Choose a bolder accent to create striking contrasts.

\* Sherwin-Williams VinylSafe Technology colors must be used when choosing darker colors that have a Light Reflecting Value (LRV) of 54 or lower. For colors with a LRV of 55 or higher (the higher the LRV, the lighter the color), you can safely use an acrylic latex paint.

## So many profiles. So many options.

Restoration Millwork™ is engineered to make the creation of charming accents easy — and to help ensure that beautiful details last. Our growing lineup provides greater flexibility in choosing just the right look.

## Custom combinations create dynamic style.

There's no limit to how Restoration Millwork profiles can be combined for unique looks.

This trimboard accented with base cap shows no matter how simple the project, you can add detail and interest.

Dressing up cornice moulding can be as easy as detailing trimboards with rake.

The use of crown moulding elevates any exterior trim application, creating a more formal look.

## Curb appeal. And then some.

With so many different design details, Restoration Millwork is the trim for giving your home special curb appeal. But it's also the ideal material for imaginative craftsmen. Chairs, tables, planter boxes and more await your creative skills.
